ENERGY & INFRASTRUCTURE AT SCALE

Israeli Energy Delegation to Germany

DATE
14–18 March 2027

DESTINATION
Southern Germany / Stuttgart Area

FOR
Israeli companies ready for market entry

Connecting Israeli innovation with Germany's leading industrial, energy and technology ecosystem. The program focuses on technologies shaping the next generation of energy and infrastructure – from distributed energy and efficient buildings to sustainable data centers and resilient critical infrastructure – creating opportunities for collaboration, pilots and investment.

WHAT WE WILL EXPLORE

Sustainable data centers and digital infrastructure
Power supply and flexibility, cooling, water efficiency, waste-heat utilization and operational resilience.

Distributed energy and efficient buildings
On-site generation, storage, energy management, refrigeration and heating across retail, logistics and production sites.

Resilient construction and critical infrastructure
Resilient buildings, protection of critical infrastructure and public-private collaboration with municipal and institutional partners.

Application deadline: 14 February 2027

ORGANISED BY

DEUTSCH-ISRAELISCHE WIRTSCHAFTSVEREINIGUNG E.V. · BIZ · future scaling green innovation

PROGRAMME HOSTS

SCHWARZ (Lidl, Kaufland, Schwarz Produktion, PreZero, schwarz digits) · BADENCAMPUS

WHO SHOULD JOIN

Built for companies ready to sell

This delegation is for Israeli companies that are ready to enter the German market and want to start with a first proof of concept.

TRL 6 or higher

A market-ready product or proven technology.

Ready to sell

Ready for commercial roll-out – first customers or references are a plus.

First PoC in Germany

Direct intent to start a first pilot on the German market.

THE GOAL

From first meeting to first customers

Every meeting is built to lead to a proof of concept – and to first customers in Germany.

1

Meetings

Direct meetings with our programme hosts.

2

Follow-up talks

Deeper conversations with interested hosts.

3

Proof of concept

A PoC together with a host company.

4

First customers

Orders placed after a successful PoC.

5

LOI / Investment

In relevant cases.
